In 1990, a person is 15 years old. In 1995 that same person is 10 years old. How is this possible?

Who Am I?

Fun Bible Facts Leprosy in the Bible

The term "leprosy" (including leper, lepers, leprosy, leprous) occurs 68 times in the Bible—55 times in the Old Testament and 13 times in the New Testament. In the Old Testament, the instances of leprosy most likely meant a variety of infectious skin diseases, and even mold and mildew on clothing and walls. The precise meaning of the leprosy in both the Old and New Testaments is still in dispute, but it probably includes the modern Hansen's disease (especially in the New Testament) and infectious skin diseases.

In addition to pain and disfiguration, biblical leprosy and Hansen's disease were dreaded, and people shunned because of them.

Jesus freely touched people with leprosy. While people with leprosy traditionally suffered banishment from family and neighbors, Jesus broke from the tradition. He treated lepers with compassion, touching and healing them.
