Brainercise Riddle

Using five potatoes, how can you feed six children an equal amount of potatoes, without resorting to fractions?

Who Am I?

Fun Bible Facts What was so special about camels?

The camel has been called the “ship of the desert,” being a primary mode of transportation for taking goods and people across dry, hot terrain. Recent discoveries show it was domesticated before 2000 B.C. When camels were introduced into Palestine is a matter of ongoing debate.

Since this animal has the capacity to store several days' supply of water in its stomach, it is ideally suited for such work. In addition, the storage of fat in its hump makes it possible for the camel to subsist on little food when taking a desert journey. They were counted among the riches of Job (Job 1:3). Camel hair was used for tents and for clothes (Mark 1:6).
